

Purchasing a New Domain with Flint Avenue

Congratulations on your new website! Here's what we'll need from you in order to get your website up and running in no time.

1. Please visit our domain purchase site here: https://www.secureserver.net/default.aspx?pl_id=532488
2. Enter your requested domain (website) name in the search box and press **"Search"**.

3. Select your name and **"Continue to Cart"**.

4. After that, the website will ask you about 3 options: security, Linux web hosting, and adding email to your domain. We recommend Privacy Protection, Economy, and Business email for general business purposes, but please contact us at ProjectNinja@flintavenue.com if you have any questions about these options. Select your options, and click **"Continue with these Options"**.

5. Create an account or sign in, and purchase your plan. BINGO! DONE. Give us a holler when this is complete!
